### Raimondi RLS Tile Leveling System

Raimondi Levelling System (R.L.S.) is a revolution in the tile setting. In addition to ensuring the proper leveling of tiles by eliminating "lippage," this system helps to speed up the tile setting process. R.L.S. is strongly recommended when installing flexible, large format, heavy or low-thickness tiles (3-6 mm; 1/8"- 1/4"). R.L.S. is made up of three elements: clips (spacers), wedges and pliers. The wedges are reusable indefinitely.

- Each TapeMat Kit contains:**
- TapeMat
  - SunStat Command Thermostat
  - Floor Sensor
  - LoudMouth Monitor/Alarm
  - Sm. Roll of Double-sided Tape
  - Digital Multimeter
  - Installation Manual

TapeMat® electric floor warming mats have an open-weave design that provides for a 1-step mortar installation. Each mat is edged with easy-to-install double-sided tape that adheres to a subfloor for faster layouts. The open-weave mesh allows mortar to bond easily with the underlying material. TapeMat electric floor warming mats add only 1/8" thickness to a typical tile floor installation and can be adjusted easily to accommodate curves, angles, and cut-outs.
