2019

Revolutionize Your Kitchen

Innovation. Style. Quality. Value.

We've proven our commitment to delivering what home-owners want in a sink, proud to have served thousands of satisfied customers.

"The sink I want, or the sink I can afford?"

That's a question you'll never have to ask with Tigor.

Motivated by the desire to put high-end luxury kitchen design within reach without breaking the budget, Tigor never sacrifices quality or style. In fact, we're continually developing new features and accessories to make Tigor an even smarter choice.

The durability of premium 304-grade stainless steel, proprietary SoundShield™ noise-dampening technology, sleek modern style, plus a wide selection of versatile accessories, come together, all in one package, making your decision clear.

Don't just take our word for it—let our customers tell you themselves.

In their own words

Great looking sink—everyone that sees it makes a comment about how beautiful it is and how deep it is too. It feels very modern but would still work with transitional or traditional style. I am very proud of this selection and love all the great comments from friends.

-Victoria L

The sink is sleek, stylish, and just plain beautiful! I get so many compliments. I've only had it for 2 months, but so far, so good!

-Lauren S

I absolutely love it. The sink I've always wanted.

-Lisa B

This is a great undermount sink but I especially love all the "extras". We don't have/want a disposal so the little drain catcher basket is perfect for keeping bits from going down the drain. We keep the bottom rack in all the time and it helps keep the bottom from getting gross... It's super easy to rinse out. We use the drying rack a lot, not just for drying (rinsing produce). This thing is big enough to bathe a toddler in. For us it's perfect.

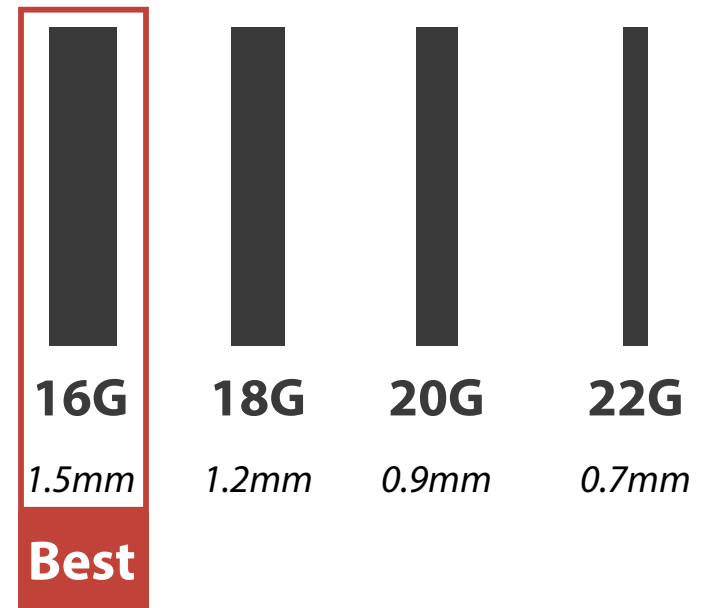

-Peter C

Tough

Thinner sinks may quickly accumulate dents and dings. Tigor sinks stand the test of time, even as you use heavy cookwear and dishes.

Tough, damage-resistant premium commercial 304 grade stainless steel protects against dents and dings, while 18/10 chromium/nickel blend minimizes rust and corrosion.

The majority of Tigor sinks are constructed of thick, extra-durable 16 gauge (1.5mm thick) steel. We also offer 18 gauge (1.2mm thick) sinks as an even more budget-friendly option.

Quiet

SoundShield™

All 16 Gauge Tigor sinks are equipped with extra thick foil microfilm sound-dampening pads covering 80% of sink base and 25% of sink walls.

- Sound Barrier Technology**
Innovative foil pads deaden sound
- Absorbs vibration** and sound from sink use
- Minimizes noise** from garbage disposal

Spacious

We've carefully engineered our sinks to maximize useable space.

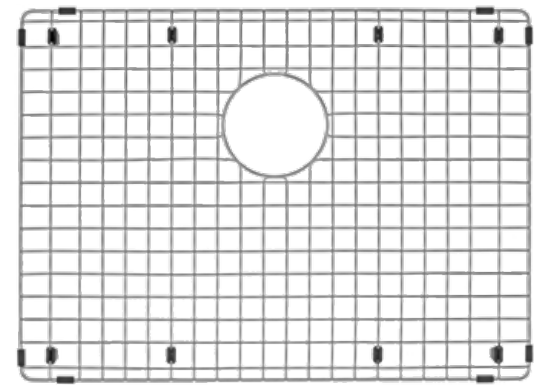

Many Tigor sinks are constructed with a 9" or 10" basin depth, making them spacious enough to accommodate your largest pots and pans without interfering with standard plumbing. You'll love the extra room!

Distinctive custom fit and unique accessories complement and enhance your ideal workspace
